

Aadi Bioscience Announces Financial Results for the Second Quarter 2024 and Provides Corporate Update

August 7, 2024

FYARRO® sales of \$6.2 million for Q2 2024, a 15% quarter over quarter sales growth

Interim analysis of two-thirds of fully enrolled PRECISION1 trial planned for Q3 2024

Conference call to be held today at 8:30 am EDT

LOS ANGELES, Aug. 7, 2024 /PRNewswire/ -- Aadi Bioscience, Inc. (NASDAQ: AADI), a commercial-stage, precision oncology company focused on developing and commercializing therapies for cancers with alterations in the mTOR pathway, today announced financial results for the second quarter ended June 30, 2024, and highlighted recent corporate progress.

"The second quarter saw quarter over quarter sales growth for FYARRO, as anticipated, and an increase in demand across both new and existing accounts, including from major oncology centers. Approximately 80 percent of accounts have ordered multiple times already this year, reflecting the clinical value of FYARRO for patients with advanced malignant PEComa," said Dave Lennon, President and CEO of Aadi Bioscience. "Looking ahead, we will provide the next interim update from PRECISION1, a tumor-agnostic study that enrolled any tumor type presenting with qualifying *TSC1* or *TSC2* inactivating alterations, later in the third quarter. With this study, *nab*-sirolimus has the potential to demonstrate a meaningful impact on the lives of patients who have already received standard therapies appropriate for their tumor type and stage of disease."

Recent Operational Highlights

- **FYARRO net product sales were \$6.2 million in the second quarter**, an increase of 15 percent from Q1 2024 and in line with the prior year period.
- **Two-thirds interim analysis of registration-intended PRECISION1 trial is planned for Q3 2024.** PRECISION1 is exploring *nab*-sirolimus in solid tumors with *TSC1* or *TSC2* inactivating alterations. The trial is fully enrolled, and study completion is expected by year-end.
- **Enrollment into two additional Phase 2 trials is ongoing, with initial data expected by the end of the year.** These tumor specific, open-label trials are investigating the potential of *nab*-sirolimus for difficult-to-treat mTOR-driven cancers: advanced or recurrent endometrioid-type endometrial cancer (EEC) in combination with letrozole, and neuroendocrine tumors (NETs) of the lung, gastrointestinal tract and pancreas.

Second Quarter 2024 Financial Results

- Cash, cash equivalents and short-term investments as of June 30, 2024, were \$78.6 million as compared to \$108.8 million as of December 31, 2023, which is expected to fund operations into Q4 2025 based on current plans.
- Total revenue for the quarter ended June 30, 2024, was \$6.2 million, resulting from sales of FYARRO.
- Net loss for the three months ended June 30, 2024, was \$14.6 million as compared to \$18.0 million for the three months ended June 30, 2023.

Conference Call Information

The Aadi management team is hosting a conference call and webcast today at 8:30 am EDT (5:30 am PDT) to provide a corporate update and discuss results for the second quarter 2024.

Participants may access a live webcast of the call and the associated slide presentation on the "Investors & News" page of the Aadi Bioscience website at aadibio.com. To participate via telephone, please register in advance at this [link](#). Upon registration, all telephone participants will receive a confirmation email detailing how to join the conference call, including the dial-in number along with a unique passcode and registrant ID that can be used to access the call. A replay of the conference call and webcast will be archived on the Company's website for at least 30 days.

About Aadi Bioscience

Aadi is a commercial-stage precision oncology company focused on the development and commercialization of therapies for cancers with alterations in the mTOR pathway, a key regulator of cell growth and cancer progression. To unlock the full potential of mTOR inhibition, Aadi uniquely combines nanoparticle albumin-bound (*nab*) technology with the potent mTOR inhibitor, sirolimus. Aadi received FDA approval and commercializes FYARRO® for the treatment of adult patients with locally advanced unresectable or metastatic malignant perivascular epithelioid cell tumor (PEComa).

Aadi is exploring *nab*-sirolimus in PRECISION1, a Phase 2 tumor-agnostic registration-intended trial in mTOR inhibitor-naïve malignant solid tumors harboring *TSC1* or *TSC2* inactivating alterations. Aadi is also exploring *nab*-sirolimus in two tumor specific Phase 2 trials for difficult-to-treat mTOR-driven cancers: neuroendocrine tumors (NETs) of the lung, gastrointestinal tract and pancreas, and advanced or recurrent endometrioid-type

endometrial cancer (EEC) in combination with letrozole. More information on the Company's development pipeline is available on the Aadi website at www.aadibio.com and connect with us on Twitter and LinkedIn.

Forward-Looking Statements

This press release contains certain forward-looking statements regarding the business of Aadi Bioscience that are not a description of historical facts within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on the Company's current beliefs and expectations and may include, but are not limited to, statements relating to: the Company's cash runway extending into the fourth quarter of 2025; the anticipated timing of commencement, enrollment, data releases and completion of the Company's clinical trials, including the expected PRECISION1 two-thirds interim analysis in Q3 2024 and study completion by year-end and Phase 2 trials in EEC and NETs later in 2024; the Company's expectations regarding a return to sales growth and continued advancements, including in potential additional indications; expectations regarding the beneficial characteristics, safety, efficacy, therapeutic effects and the size of the potential targeted markets with respect to FYARRO, including in TSC1, TSC2, NETs and EEC; plans and potential for success relating to commercializing FYARRO; and the sufficiency of the Company's existing capital resources and the expected timeframe to fund the Company's future operating expenses and capital expenditure requirements. Actual results could differ materially from those anticipated in such forward-looking statements as a result of these risks and uncertainties, which include, without limitation, uncertainties associated with the clinical development and regulatory approval of FYARRO in additional indications, including potential delays in the commencement, enrollment and completion of clinical trials for additional indications; risks associated with the ability to successfully commercialize FYARRO; failure to demonstrate the efficacy of FYARRO in clinical trials for additional indications; the risk that unforeseen adverse reactions or side effects may occur in the course of commercializing, developing and testing FYARRO; and risks related to the Company's estimates regarding future expenses, capital requirements and need for additional financing.

Additional risks and uncertainties that could cause actual outcomes and results to differ materially from those contemplated by the forward-looking statements are included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2023, including under the caption "Item 1A. Risk Factors," and in Aadi's subsequent Quarterly Reports on Form 10-Q, and elsewhere in Aadi's reports and other documents that Aadi has filed, or will file, with the SEC from time to time and available at www.sec.gov.

All forward-looking statements in this press release are current only as of the date hereof and, except as required by applicable law, Aadi undertakes no obligation to revise or update any forward-looking statement, or to make any other forward-looking statements, whether as a result of new information, future events or otherwise. All forward-looking statements are qualified in their entirety by this cautionary statement. This cautionary statement is made under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995.
